Congratulations! You have purchased the **BEST** Lycra/Poly wrestling singlet available. The fabric content is 88% Poly and 12% Lycra. To maximize the life of your garment, as with all synthetic fabrics, please use the following washing instructions:

Machine wash separately in cool water. Hot water can cause color bleeding. Use mild (non-phosphorous) detergent. Phosphates can also cause bleeding. Do not wash white and colored garments together. Do not use chlorine bleach. Bleach will fade colors and weaken fabric. Do not wash with other items such as: denim, warm-ups, or towels. Remove garments from washer immediately. Hang to drip dry or tumble dry on low.

Following the above instructions will give your garments the long life they deserve. Bleach, hot water and/or a hot dryer is your singlets worst enemy!

Keep garments away from Velcro at all times – in the wash and gym bag!

Thank you for buying BRUTE.

Current replacement cost for singlet and jacket is \$100.
